

III. SPECIFICATION AMENDMENTS

On p.12, l. 1, as a new line, please insert:

Brief Description of the Figures

Fig. 1 is an illustration of a graph providing a correlation between tibolone particle size and tablet dissolution described herein.

Fig. 2 is an illustration of a graph showing the relative bioavailability of Org A. On the y-axis is depicted the relative Area Under the plasma Concentration versus time curve ("AUC"), with the solution (batch S) being the reference at 100%.

Fig. 3 is a graph showing the AUC of Org A and Org B for batches A and S.
